Rental businesses must be licensed with Virginia and must enter the Department of Taxation's assigned renter number at the time of the title transaction.</p>
Empty weight	The weight of the vehicle excluding any load.
Gross weight	<p>The empty weight of the vehicle plus the weight of the load it is carrying.</p> <p>Note: The gross weight may be increased during a registration period. The new weight should not be more than the manufacturer's gross vehicle weight rating or manufacturer's gross combined weight rating.</p>
Combined weight	The empty weight of the unit added to the weight of the load carried or pulled.
Model year	The most recent model year of the vehicle manufactured and shown on the showroom floor for sale.

Terms	Definitions

These laws require the seller of a motor vehicle to indicate the odometer reading when there is a transfer of ownership.</p> <p>When disclosing an odometer reading, an odometer code of Actual Mileage, Exceeds Mechanical Limits or Not Actual Mileage must be selected.</p> <p>Actual Mileage - the exact distance the vehicle has traveled (accrued mileage) as displayed on the odometer, whether in miles or kilometers. Only whole numbers are used (no tenths).</p> <p>Exceeds Mechanical Limits - refers to vehicles equipped with a 5 digit odometer that only display a reading up to but not greater than 99,999. The mileage displayed on the odometer is entered in the vehicle record with an indication that the reading exceeds the odometer's mechanical limits (i.e.: odometer displays 12,000, however the cumulative mileage is 112,000).</p> <p>Not Actual Mileage - the exact distance the vehicle has traveled (accrued mileage) is unknown. Document Terms & Title Tips

The purpose of document terms is to explain the purpose of establishing title documents/records and what different title documents there are.

Terms	Definitions
<p>Manufacturer Certificate of Origin (MCO) or Manufacturer Statement of Origin (MSO)</p> 	<p>A newly manufactured vehicle comes with a manufacturer’s certificate of origin (MCO) or manufacturer’s statement of origin (MSO). The manufacturer issues the MCO/MSO to a dealer with a franchise to sell a specific make of vehicle. The MCO/MSO is a new vehicle’s transfer of ownership document.</p> <p>The front of the MCO/MSO will contain the name of the manufacturer, the vehicle information and the name of the franchised dealer purchasing the vehicle from the manufacturer. The MCO/MSO changes to a title upon the first sale of the new vehicle. New car dealers must have a franchise from the manufacturer in order to sell a specific make of vehicle. If franchised dealers sell vehicles to other dealers that do not have a franchise for the vehicle make, the purchasing dealers must title the vehicles in their name before they can reassign the vehicles to other dealers or individuals.</p>
<p>Virginia/Out of State title</p>	<p>A title establishes ownership of a vehicle. The appearance of a title will vary depending on the issuing state. The Department of Motor Vehicles reserves the right to authenticate any title document submitted.</p>
<p>Registration cards</p>	<p>Out-of-State registration cards may be used to transfer a title record from one state to another. They are accepted if the owner’s name is on the card, registration is current and card is valid. The Department of Motor Vehicles reserves the right to authenticate any out of state registration card.</p>
<p>Owner/Operators</p>	<p>A motor carrier may operate under lease with an owner/operator.</p>
<p>National Motor Vehicle Title Information System (NMVTIS)</p>	<p>A national titling information system for motor vehicles. It is designed to help prevent trafficking of stolen vehicles by making it difficult to title a stolen vehicle.</p> <p>If NMVTIS distinguishes a discrepancy a held will be applied to the title record for DMV to perform additional research against the out of state vehicle record. The Virginia title will not be released until the NMVTIS held is removed.</p>

Terms	Definitions
Titling	<p>Motor Carriers that own motor vehicles must establish a title record prior to obtaining registration. Once titled, apportioned registration may be applied for to allow travel between jurisdictions.</p> <p>When titling a newly acquired vehicle or transferring the title to Virginia from another jurisdiction, all security interests (liens) must be recorded on the Virginia title record.</p>
Title transactions	<p>Titles are used to establish ownership of a vehicle and also to show liens and other applicable vehicle information.</p> <p>Virginia allows up to eight names listed on the title as the owner of the vehicle.</p> <p>A title may also have up to three recorded liens, if applicable.</p> <p>The current version of the Virginia title has one section for assignment of the title by owner and three sections for reassignment of title by a dealer. If the vehicle is being sold from one individual to another individual, the buyer must obtain a new title in his or her name before the vehicle can be sold to anyone else. Only licensed dealers may reassign titles without having to obtain titles in their name.</p>
NADA (National Automobile Dealers Association)	<p>For a transaction between individuals (CASUAL SALE), the minimum SUT is calculated based on the trade-in value given in the "NADA Official Used Car Guide" UNLESS one of the following is submitted:</p> <ul style="list-style-type: none"> •If the vehicle is 5 YEARS OLD OR NEWER a Affidavit for Procurement of Title •If the vehicle is MORE THAN 5 YEARS OLD <ul style="list-style-type: none"> •a Bill of Sale (BOS) OR •If the transfer of ownership document is a VA title and the sale price was recorded on the title by the seller this is the equivalent of a BOS.

Terms	Definitions
Title signatures	<p>When transferring ownership from the seller to the buyer, it is very important to ensure all documentation has original signatures and is accompanied by the supporting documentation. You as the buyer must sign and print in the required sections of the title.</p> <p>If the buyer is a company and you are employed by that company and the authorized representative to sign you must print the company's name, sign your name, and indicate the title you are recognized by within your company. (Example: Company name by Signature (title of person). Note: This is not the same as having power of attorney to sign on behalf of a company. Refer to the title documents for information regarding the use of a power of attorney.</p>
Title Weights	<p>While creating a title record it is important to ensure all rated weights are recorded correctly as indicated by the vehicle's manufacturer. Once titled the rated weights should not be changed, unless the vehicle is reconstructed or altered from its original construction or certain required documentation is submitted.</p> <p>When registering the vehicle, the registered gross weight is used to indicate the weight of the vehicle and the load. Note: Please keep in mind if the vehicle is grossed for more than it can safely carry, it may be subject to a citation.</p> <p>When recording the rated weights keep in mind the vehicle's GVWR and GCWR should not be recorded as the same.</p>
Title errors	<p>Upon submission of a title transaction through the webCAT system, you will receive an invoice for payment. If you make an error while processing the title transfer, do NOT pay the invoice. Contact a webCAT administrator immediately so the transaction can be corrected or removed.</p> <p>If an error is made and the invoice is paid, the correction to the vehicle record may take longer because the vehicle title record is created in the DMV mainframe upon payment.</p>

The power of attorney is a document by which one person appoints another as his agent and confers upon him the authority to perform certain specific acts or kinds of acts on his behalf. The primary purpose of a power of attorney is to evidence the authority of the agent to third parties with whom the agent deals. In other words, DMV needs to witness the granted authority (power of attorney) given a person when the person, acting for another, does business with DMV.

When completing a title establishment on webCAT if the vehicle was purchased from a dealer and the VSA 17A was completed, submit it with ownership documents.

If the vehicle was purchased from an individual, the VSA 17A does not need to be completed nor submitted with ownership documents.

The webCAT user must agree to a title certification prior to processing the title transaction.

A bill of sale is a legal agreement of 2 or more parties indicating a transfer of ownership and is (generally) recognized by the courts.

Customers are encouraged to complete a bill of sale every time a vehicle is sold or purchased as receipt of the exchange of ownership.

A customer may hand write or type a Bill of Sale for vehicles older than 5 years.

The bill of sale must include the vehicle information.

DMV requires a bill of sale at the time of titling if the NADA trade in value is disputed. If the vehicle is older than 5 years, the Vehicle Price Certification (Bill of Sale) or previously prepared bill of sale may be submitted.

The federal Truth in Mileage Act Regulations, (49CFR580, et. seq.) requires that an individual or dealer in whose name a motor vehicle is titled disclose the mileage when there is a transfer of ownership. This protects both the buyer and the seller.
