Dear Sir or Madam:

The VSA 17A: Titles and Registration Application form has been modified to reflect legislative changes from the 2005 General Assembly session. The revised form will be implemented by the Department of Motor Vehicles on July 1, 2005.

The revised form includes the following additions:

- A new box has been added under the Acquisition Field on the front side of the form to allow customers to have the option of having the original certificate of title held electronically by DMV until they need the title to be printed. This addition was added to assist customers who lose the original title and have to come into DMV to have a new title printed when they are selling their vehicle.
- A new block has been added under the Registration Field on the reverse side of the VSA17A to expand the vehicle registration for permanent plates for vehicles operated for hire with common carrier or irregular route common carrier authority.

If you use automated equipment to produce this form, your equipment will need to be reprogrammed by your dealership or selected vendor. The reprogramming will need to be completed by July 1, 2005 to accommodate the changes to the front and back of the form. A copy of the form has been included to facilitate the reprogramming process.

If you have questions, please contact Eula Moore-Anderson at 804-367-2634 or Joseph Owsiak at 804-367-2977 in Vehicle Services.

Thank you.

Sincerely,

Karen Grim
Assistant Commissioner
